Third Spot Also Two Team Tie

Softball League Load Remains In Two Team Deadlock

By John D. Schofield

Millikin Construction and Smiggins remain tied for top spot in the Crawford County Softball League, both on 7-2 records. Kelsey placed a third place tie with Chevrolet, losing out another forfeit. The Chevy nine is riding a three game win streak at the present time. Bear Archery slipped to fifth place and DeCaires moved up to sixth to leave Ausable Souvenir in the cellar.

In a real thriller on Monday night, Chevrolet came up with four big runs in the seventh inning to nip Ausable Souvenir 4 to 3. Losing pitcher Aubrey Welch of Frederic and Ed Strong of Chevrolet each had two hits.

In another close game on Tuesday night, DeCaires upset Bear Archery 5-3. DeCaires came up with all their runs in the last two innings. Albert Johnson had three for four for DeCaires, including a double. Winning pitcher Bernie Fowler turned in a five hitter. In the second game,

DeCaires lost to Smiggins 7-2.

On Thursday night Ausable lost again by a close score this time to Millikin by a 5-3 margin. For the second time last week Frederic outdid the team that beat them, John Rolfe and Dick Ebert each had two hits, with Ebert getting a homer around the fence. Bob Williams had a single and a triple for the winners.

Smiggins broke loose with four home runs in the first game on Friday to trounce DeCaires 12-3. This establishes a new record for both teams in a single game and for one team in a single game. Hitting the round trippers for Smiggins were Herb Wheeler, Fritz Golnick, Mike Joyce, and winning pitcher Bobby LaMotte. Bernie Fowler clouted his second homer of the season for the losers.

In the final game of the week, Chevrolet downed Bear Archery in a sloppy played game for both teams. The final score was 9-7. The Archery had 12 hits and Chevrolet scored five runs on only one hit.

Hold Weekly Dances At Lake Margrethe

The slab at the former Lantern Dining Room at Lake Margrethe is seeing activity each Saturday night during the summer. Van Smith, owner of the property, has allowed a group of enterprising youngsters to hold dances there. The project was sparked by Karl Golnick. Assisting him are Judy Kenyon, Judy Larson, Richard Moore and Vivian Fenton. They furnish music by records, and to judge by the size of the crowd who go there, the dances have caught on.

The hours are 8 to 12:30. A small donation to pay the electric bill is all that is asked. The dances are being staged also. This may be a regular date too if enough interest is shown. Everyone is invited to give the dances a try.

Hannah Kroll Wins \$48 On TV Program

Last Tuesday night, July 8th, saw the last appearance of Miss Hannah Kroll, daughter of Mr. and Mrs. Charles Kroll, of the program "Bright As A Dollar," which has been running for many weeks on Station WPTV-TV, Traverse City. Hannah had run up a total of \$48 dollars while she was on the show. The spelling of the word "concede," and thereby ended her record appearance, which was the longest for any child appearing on the program in the spelling category, and was a tie with one youngster in another category, who had also been able to stay on for ten weeks.

Hannah made application to appear on the program without her parents' knowledge, and the start of the series that she will give the money she wins to CARE and polio funds.

Legion Auxiliary News

The Grayling American Legion Auxiliary Unit 108 held its regular business meeting with sixteen members present. Rowena Bilsby, unit chairman, thanked the girls on behalf of Kay Warner, who attended Girls' State. Kay will give her report to the ladies later.

Tuesday, June 8th, was election of officers. The following officers were elected: President, Jerry Muth, first vice-president, Janita Gibson, second vice-president, Maureen McLennan, secretary, Mary Johnson, treasurer, Anne Smith, historian, Rowena Bilsby, chaplain, Marie Quinn, Sgt. at arms, Emma D'Amour, past president, Margaret Balch, executive board, Beryl Moore, Goldie Moore and Marilyn Gierke.

The next meeting will be a social meeting July 22nd, at 8:00 o'clock, Legion Hall.

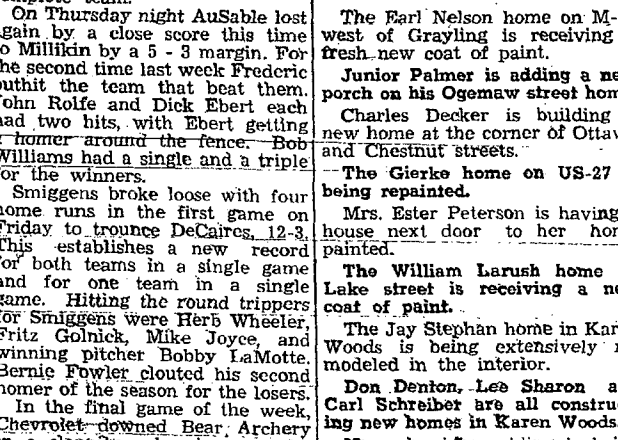

Any lady or girl who would like to work from July 26 to August 2 doing kitchen or waitress work while the archery and at Lake Margrethe contact Mrs. Larry (Babe) Balch, 604 Smith St., phone 2622.

Grayling Host To Nation's Archers July 28 - August 1

HANG-TREE DISTRICT COURT JUDGE ROY BEAN ONLY LAW WEST OF THE RANGE!

This honest looking gentleman is none other than that internationally infamous minion of the law, the honorable (?) Judge Roy Bean, who represents the "Only Law West of the Range" — archery range that is, Slim.

Judge Bean's hangout is the "DEN OF VICE" which will be in full operation at the coming National Archery Tournament in Grayling. All persons attending this tournament are warned that the heavy hand of Marshall Matt Dillon may at some time rest on their shoulders. A speedy trial follows and the party who has no means to effect his release, chance Hall Girls! For a drink of "Gates Ale" they will be real friendly. A word of warning, "podnah" — come prepared for plenty of fun, but don't forget your credentials. Justice at Hangtree District Court will be swift and sure — sure swift, that is.

Former Teacher Authors Basic Mathematics Book

A. J. Joseph recently received a copy of an excellent book published in Shorewood, Wisconsin. Mr. Joseph's sister, Miss Margaret Joseph, who is head of the mathematics department of Shorewood High school, is the author of the article. She has held that position for the past eleven years. She took her bachelor and master degrees in mathematics at the University of Wisconsin.

Miss Joseph is co-author of a book published this spring, "Basic General Mathematics." Mildred Keiffer, supervisor of mathematics in Cincinnati schools, is Miss Joseph's partner in authorship. Making math fun and stimulating to young people has been Miss Joseph's consistent aim. The new respect gained for this field of study is joy to her and she is proud to be a part of the world and students are becoming conscious of the importance of mathematics in every day living and in the scientific field.

To make it easier for her solid geometry students to grasp three dimensional figures, Miss Joseph copyrighted a perspective drawing used throughout the United States. The drawing is a perspective drawing of a cube, which has been included in their state courses of instruction.

During the time that she was writing the textbook, Miss Joseph was state representative of the National Council of Teachers of Mathematics. The group meets three times a year, and Miss Joseph has many times talked before it. In 1956 she had charge of the national convention held in Milwaukee.

The whole trend in mathematics today is to change the format for teaching from kindergarten up. Many teachers do not have the patience to work this out; they would like to get to the point of a complete capsule. Miss Joseph is eager to start work on this.

Last fall Miss Joseph wrote the algebra and geometry questions for Book IV of the "Be a Better Reader" series by Nila Banton Smith of New York University. The book is not yet finished or published, although Miss Joseph's part was completed last November. A contract has already been signed to prepare problems for Book V of the series.

An article on hexaflexagons by Miss Joseph was quoted in the March 1957 issue of the American Mathematical Monthly and recently in the British equivalent of that magazine. Miss Joseph made more than 200 hexaflexagons for a banquet held by mathematical teachers at Madison, Wis. in the summer of 1956. Because so many wanted to know how to make them, she wrote out the directions for the national magazine.

Miss Joseph's new textbook, "Basic General Mathematics," is replete with pictures, many of them from Milwaukee. One of them is of the Milwaukee stadium. It is used in connection with material on figuring batting averages and on the mathematics of the game.

Teaching math and having her pupils become math enthusiasts keeps Miss Joseph happy. For her the end of the school year would be a real bummer if it were not that she has so many other things in the mathematical field, articles to write and talks to prepare.

Miss Joseph was a former teacher in the Grayling schools.

Edward Mason, son of Mrs. A. E. Mason of Lake Margrethe and key research engineer for the Chrysler Corp., was killed and his wife, Gloria, 36, not injured, in a crash landing of a private plane plunged to the ground at the south end of Higgins Lake Friday afternoon.

Mrs. Elizabeth Mullin, 34, of Birmingham, died in an ambulance enroute to Mercy hospital at Grayling from injuries that included a crushed chest and skull fracture.

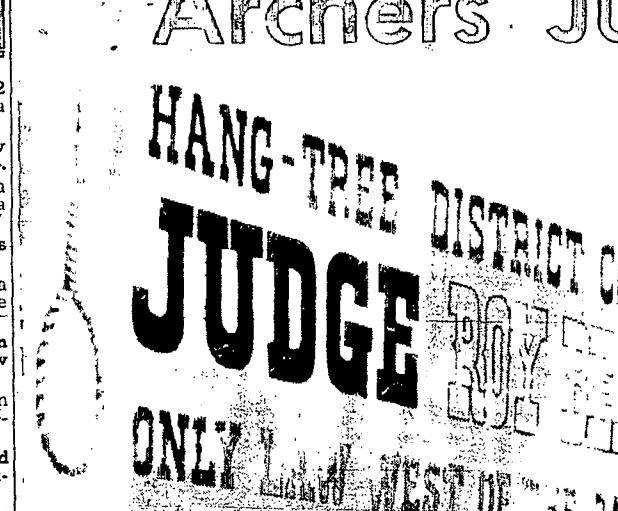

James Mullin, 35, her husband, was treated for shock and bruises at the Grayling hospital and released.

Clarence Bielby, 47, of Flint, owner and pilot of the aircraft, was hospitalized at Grayling with a fractured leg, facial and head injuries. Bielby struck the ground, about 20 feet away from the cottage, nose down, its fuselage standing almost straight up in the air. Mrs. McKenzie, who was in the cottage was treated for shock caused by the excitement.

The crash occurred about 100 feet from the lake shore and only a short distance from the north end of the Higgins Lake State park. The impact demolished the aircraft, but there was no fire.

Bielby told state police troopers Patrick Collin and John Van-Dusen that the engine of his plane failed causing the crash. He reported that the motor was not getting a proper supply of gasoline and that he was attempting to reach a spot on the beach to land when the aircraft plunged.

Prisoners Are Just People In Trouble Because They Violate

PRISONERS are people in trouble. They spend part, perhaps most, of their lives behind bars because they violated the law that society has developed to govern itself.

Michigan has 10,500 prisoners in three major institutions at Jackson, Marquette and Ionia; the Cassidy Lake Training School, the Detroit House of Correction and 19 camps.

where, prisoners no longer are lashed or starved — but major faults still exist.

"If you want to see what a prisoner looks like, look in the mirror," said Robert M. Scott, youth division director in the state corrections department three years ago.

Corrections officials for years have sought to eliminate the "ancient and asinine inequities" in the state's penal code.

Director Gus Harrison points to the law which provides a longer prison sentence for possessing burglar tools than for using them.

There are 21 offenses in Michigan for which a life sentence can be imposed.

There are broad inconsistencies between the stiff penalties for crimes against property and the lighter sentences for offenses against people.

The severe sentences for forgery and embezzlement, for instance — up to 10 years — were forced into the law books years ago by banking interests to protect themselves.

Michigan's penal code still contains a penalty for inciting Indians

to riot. Because of the probate court waiver law, children under 17 can be sentenced to prison and treated like adults.

Inequities in the system were brought to a head following the 1952 riots at Jackson, which brought a major reorganization in the state corrections system.

Most of the ills of the system were traced by the experts to the penal code. Seven groups are campaigning with officials for reforms.

Penologists insist that their concern in changing the penal code is not to soften conditions for inmates or coddle criminals who break the law.

"We believe that a more equitable code will give Michigan a better chance to help prisoners rehabilitate themselves and be restored to society," said Harrison.

Short of statutory changes, the corrections system has developed a program of self-help in each institution and camp.

There are Alcoholics Anonymous units inside the walls — even at Cassidy Lake, where prisoners are all under the minimum age of 21 which would qualify them to obtain liquor.

There are veterans' organizations, public speaking groups and academic programs. State chaplains have been given a larger role in rehabilitation.

Where psychologists, the "egg-heads" of the profession, who counsel inmates, and social workers with custodial personnel several years ago, they now work together more harmoniously.

The Red Cross depends upon prisoners in state institutions for donations when blood supplies are diminished in civilian blood banks.

At Jackson, prisoners stage shows and boxing matches to raise money for furnishings for a chapel. Help from the free world has been forthcoming, but more is needed.

Prison newspapers often are the gauge of the mood behind bars. They often warn their inmate readers that they must write home more often to keep family ties intact; play a major role in keeping the men informed and linked to the world outside.

All of this assumes an importance to the taxpayer, who will spend \$15,000,000 this year to keep the state's prisons operating and more in future years.

The picture in the public mind of a prisoner as a fanged and brutal sub-human type is changing, and the method of dealing with him is changing from punishment to reform.

"Generally, the prison population is a pretty good cross-section of the community in which everyone lives," said Harrison.

Bits O' Talk

Mrs. Ronnow Hanson and daughter Karen returned Monday of last week after spending three weeks in Mt. Pleasant. Mrs. Hanson was a patient in Mt. Pleasant hospital where she underwent treatment for her eyes. During that time Karen was a guest of her aunt and uncle, Mr. and Mrs. Don Reynolds. Mrs. Reynolds returned with Karen and Mrs. Hanson for a short visit.

Dr. and Mrs. Jack Cook visited his father, Fred Cook in Alpena, Saturday afternoon.

Mr. and Mrs. Henry A. Reniger and Mrs. Laura Stoddard of East Lansing left Sunday after spending two weeks at their summer cottage on the Ausable. Mrs. Fern Graham of Lansing visited them the second week.

Mrs. Frank Ludeman is a new employee at Dawson's.

Mr. and Mrs. Max Reynolds (formerly Elaine Reagan of Grayling) and family of Orange, Calif., called on friends Tuesday, July 8th.

Mr. and Mrs. William Boorn of Pasadena, Calif., and the latter's mother, Mrs. Victor Thelen of Grand Rapids, drove over last Thursday from Bear Lake near Traverse City, where the Thelens have a summer place, to visit Mrs. Thomas Cassidy, the Roy Trudgones and Mrs. Paul Jones, also Sister Mary Pancretia at Mercy Hospital in Grayling. Sister Pancretia has been transferred here from Grand Rapids for the summer months. The Boorns left Saturday from Traverse City to fly back to California.

Alec Tony Doremire arrived Tuesday morning of last week from Lackland AFB, Texas, to visit his parents, the Lilwyn Doremires, for about ten days. Tony will be going to Gunter Air Force Base at Montgomery, Ala., on his return.

John Hodge of Lewiston spent several days visiting Walter Hemmingsen while Mrs. Hodge was a patient in Mercy Hospital.

JULY HEAT HIGH 112, LOW 20

Ann Arbor — If you think July is hot, perhaps you'll cool off a bit when you learn that the highest official temperature ever recorded in Michigan for this month was 112.

The thermometer climbed that high at the Mio Hydro Plant back in 1936, according to climatologists in the Meteorological Laboratories at The University of Michigan.

Of course, that 112 degrees is cold day compared to the 134 at Greenland Ranch, Death Valley, Calif., in 1913, the highest official temperature ever recorded in the nation.

And speaking of cool weather, did you know that the temperature has dipped to 32 degrees or less in every part of Michigan at one time or another during July?

Munising holds the record with 20, and not far behind are Houghton and Higgins Lake with 26, Chatham with 28, and Cadillac and Mt. Pleasant, 31, and Baldwin Big Rapids and Hart with 32.

Generally speaking, however, the state's average temperature during July north of the Thumb can be expected to be from 75 to 80 degrees the hottest part of the day, dropping to about 55 at night.

Interested parents, teachers, administrators and school board members will be offered the opportunity to view the latest in educational materials such as books, workbooks, and supplemental resources. The most modern audio-visual aids, including tape recorders and projectors to entire school communication systems will be available for public examination. Maps, charts, globes, laboratory fixtures, and copying devices will also be on display.

Central Michigan College extends an invitation to all those interested in our schools to visit the exhibits.

Over 65 distributors will be present. Last year the 65 exhibitors saw well over 1,000 people view their products. According to Woodward C. Smith, Vice President of Public Services, "Many parents and lay people accompanied the teachers and administrators to last year's conference. This interest in today's education and the methods and materials used is conducive to a more adequate educational system. We are expecting greater parent participation this year as an expression of their continued interest in our public schools."

Letters To The Editor

Crawford County Avalanche
To The Editor:

Just a few words of comment on the highway signs that Jack Fine mentioned in his column a couple of weeks ago. Several years ago when I was a member of the Chamber of Commerce, I offered them a contribution of \$100 towards the building of the signs, my suggestion was ignored. At the same time a large sign was erected at the southern approach to Grayling, but that sign did not tell anyone why they should stop at Grayling, all it did was tell how to get to "Joe Deeks Motel" and the "Gourmet Delight restaurant, etc." The type of sign I suggested was one that told the tourist what we had to offer in the way of recreation, such as Winter Sports, good fishing and hunting and the fact that Grayling is the canoeing center of Northern Michigan.

The part about canoeing was "boiled down" with the statement, "The canoe-liveries would be the only ones to benefit from it." It seems to me that the canoeists also have a stomach and does a lot of eating in our restaurants, which our restaurant owners will verify, and they also get tired and stay in the motels, and very few of them hitchhike up here, they buy gas, oil, and tires at our gasoline stations, they also buy a lot of fishing tackle from our Sporting Goods stores, and last, but not least they lug home souvenirs from our gift shops, and by the way quite a few of them drink beer and whiskey, so in my opinion there are very few businesses as if any, in Grayling that does not benefit from the canoeist. I repeated my offer of \$100 towards those signs just three years ago, again it was laughed down.

Letters To The Editor

There is another matter that has been in the lime light quite recently that is of importance to all civic minded residents of Grayling, I refer to the filthy sewer pipe that runs into our beautiful Ausable River from the Grayling sewage disposal plant. For years I have been trying to get something done about it, I have been asking my customers for several years now to write to the Waterways Commission, State Health Department and Conservation Department and complain to see if we could get something done about it. I have also written, and incidentally I do not belong to the Chamber of Commerce due to that same sewer pipe. The last time the Chamber of Commerce approached me about joining same, I stated that I would do so the day that the sewer pipe situation was corrected.

For a good many years our Chamber of Commerce has been spending all its time and money trying to make a "little Detroit" out of Grayling and thereby in my opinion spoiling one of the nicest recreation areas in Michigan.

I do not wish to have any of my Chamber of Commerce dues spent along those lines but would be very glad to join if the money were going to be used to do some of the things that should be done first here at home such as the afore mentioned highway signs, and eliminating the sewer pipe.

While we are in a good complaining mood let's touch on the subject of how our City tourist park is being slowly destroyed piecemeal for the use of local residents only, and to the exclusion of the tourist who pays at least 80% or more of our taxes for us, the small part of the park that remains has no restrooms and the pump there has been broken for years.

The canoe liveries rave very many large groups who take canoe trips on weekends, they arrive on Friday and they want a place to camp Friday night and "get this", even though they come to Grayling to spend their money they have to turn around and go back to Higgins Lake State Park, or several miles to Hartwick Pines State Park, or some other place far away, just because Grayling does not think they are important enough to provide a place for them here. Some of the liveries have been allowing them to camp on their property and the neighbors around those liveries are very angry because they can not get any sleep due to the excessive noise these groups create far into the night. If these groups were in the tourist park there would be no close neighbors for them to disturb.

By the way, the little city of Mio provides a very nice tourist park for the tourists that come their way.

Respectfully,
Warren Stephens

Mighty Mac Is The Peoples!!

From reports filtering back to Grayling from the not observers, the dedication of the Straits of Mackinac ridge was a holiday for the politicians. Both parties and the credit for the construction of the behemoth of the waves.

It seems to us that the credit for the Mighty Mac must go to the people of Michigan and not to either the Republican elephant or the Democratic donkey. Let the political spicers talk on and on... but it was the faith of the bond buyers in the people of Michigan that made the crossing of the Straits possible.

The people of Michigan are both Democratic and Republican and some are of neither political party. We feel that the Bridge should be so symbolized... for the people of Michigan and let the political mobsters keep out of the picture. It would seem that even they should have the decency and sense to recognize that such a structure would not be enhanced but rather degraded by political conniving. — R. W. S.

Proper Role Of Government

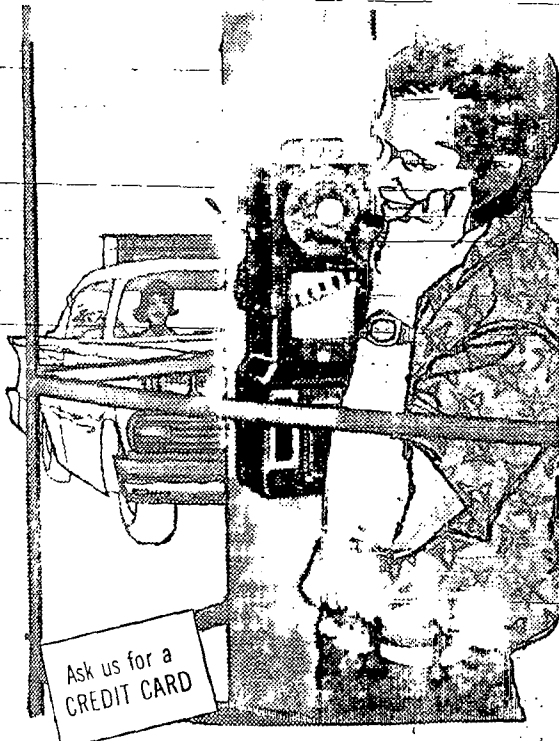

Some months ago, official forecasts held that government revenues during the fiscal year ending in June, 1959, would exceed expenditures by several hundred million dollars.

Now all hope of a budget-surplus is dead as the Pharos. Government spending for military and other purposes increases. Government revenue, because of the recession, has declined. The next fiscal year is now expected to produce a deficit of at least \$8 billion, and perhaps much more.

If there was a time when avoidable government spending should be eliminated, that time is now. The only alternatives are still higher taxes, a new major wave of inflation, or both.

To begin with, government should conduct no activity which can be conducted by private enterprise. Government is a huge lender, a huge banker, a huge insurer. The list of business-type enterprises run and supported by government is almost endless. The cost to the taxpayers is enormous.

The goal can be simply described. Confine government to what only government must do. Let private enterprise do everything else — while paying taxes for the privilege.

INTERESTING ITEMS OF NEWS GATHERED FROM THE
FILES OF THE AVAANCHE OF 23 YEARS AGO

July 18, 1935

For the oldest homecoming coming back to Grayling to attend the homecoming, Rev. Peter Kjolhede of Grant, Michigan, former pastor of the Danish Lutheran Church, takes the prize. He is 91 years old and was pastor of the local church 23 years.

Miss Lois Sorenson, daughter of Mr. and Mrs. Carl Sorenson, and Mr. William LaGrow, son of Mrs. Anna LaGrow, were united in marriage at St. Mary's rectory by Rev. Fr. James Maloney Monday morning. The ceremony took place at 10:30 o'clock and Miss Muriel DeLaMater as bridesmaid and Joseph Kessler as groomsmen attended the young couple. Both were born in this county and are graduates of Grayling High School of the class of '33 and are popular with their friends. Congratulations and best wishes are extended for a long and happy wedded life.

The Western Union Telegraph Company has just completed installation of nine Western Union clocks at various points in the city which insure absolute correct time for those enterprising concerns who have subscribed to this service. These are the first Western Union clocks ever in Grayling and indicate that the city is modernizing even to time service. Clocks have been installed at Lon Collen's, F. J. Mills, Orel Levan's, Peter Lovely's, A. & P., Chris Olsen's, James Bugby's, Harold MacNeven's and Schweitzer & Wilson's.

Worry is a thin stream of fear trickling through the mind. If encouraged, it cuts a channel into which all other thoughts are drained. — Arthur Somers Roche. He could have said drowned.

Mr. and Mrs. John Hodge (Florence McMahon), Mrs. Tom Rouseau (Libbie McMahon) of Detroit arrived today for the homecoming. Also Mr. and Mrs. Paul Ford (May Hodge) of Lewiston are here for the day. Irving and Chester McMahon are expected to arrive tomorrow.

Mrs. Ole Wium (Sigma Ellerson) of Detroit is here for the homecoming at her cottage at the lake. Mr. and Mrs. William LeVal of Detroit accompanied home Mrs. Joseph Kernocky and children, who have been visiting there for the past two weeks, and are remaining for a few days' visit.

Mr. and Mrs. Joseph Mayotte of Munising are guests of the former's brother, Edward Mayotte, arriving Monday night. The young couple were married in Munising Monday morning and are here for their honeymoon. The bride was formerly Miss Violet Raymond.

Quite a number of people, especially some who are here for the homecoming, have been wondering whether they might visit the Wolff Farm, the property that was formerly the Charles Blair place near the Lake road bridge. Mrs. Wolff says that the place will

be open for visitors at from 2 to 6 p. m. daily when there will be attendants to show visitors around. Since this property has come into possession of Mr. and Mrs. Wolff it has been made into a very interesting museum, showing many pictures and articles that take one's thoughts back to the lumbering days of this part of Michigan. Also there are many other articles and pictures that point back to days of old that are interesting to see. The public is welcome to visit the place at any time during the above hours.

Miss Ethel Taylor is home from Binghamton, N. Y., enjoying a week's vacation, attending the homecoming and visiting her father, Floyd Taylor and other relatives. Miss Taylor is employed in the L. S. Hamlin, Inc., drug store there. She is entertaining

46 YEARS AGO

July 18, 1912

The horses belonging to David Knecht and Henry Stephan were found near Moonstown after being lost for about three weeks. They were returned to their owners last week Thursday. They had strayed about thirty miles from home.

H. L. Abrahams, of Millersburg, has purchased the department store of the Kelley estate at Fredric.

Richard Sewell of Beaver Creek has probably the finest piece of wheat in Crawford County. There are twelve acres in the patch and there is going to be a big yield.

Invitations are out announcing the wedding of Miss Nora, daughter of Mr. and Mrs. Hans Peterson, to Mr. Clarence Chaggett, on Wednesday evening, July 31, 1912.

Fred Michelson, who moved to Detroit last spring, has been spending the week at home but returns to Detroit tomorrow to prepare for the Cadillac celebration which is to be pulled off next week.

The Olesgo's came here, played their opening game and left for other battle fields last Saturday. They came here with high hopes and were defeated, the score was 6 to 2.

Frederic

W. T. Lewis shipped a load of horses and camp outfit to Mackinac last week.

Earl Barber while out at J. Malco's got his hand too close to the machine. A cut hand was the result.

Grandma Barber was visiting at Grayling and Portage Lake last week. She is one of the pioneers, having reached her 80th birthday, and she will out-do lots of the young folks today.

Mrs. G. A. Wilbur, Olive and Mildred, are visiting her parents at the Ward ranch. Arthur took a run up Sunday for the day.

Ausable Breezes

Miss Flora Stephan and Emma Feldhauser will give a dance at the home of Henry Stephan a week from Saturday night, the 27th.

The Feldhauser Bros. have started their mill again. We heard the whistle this morning.

Lovells

Joe Duby had a sheep stray on to his ranch. He is thinking of some fry's if not soon claimed.

Both autos of T. E. Douglas have been out of commission the past week which made our streets very dull.

Mr. and Mrs. Charles Douglas of Johannesburg visited at Joseph Simms and T. E. Douglas families the past few days.

COFFEE BREAKS

IN THE restaurant of a large hotel in a fair-sized city, I came to breakfast late one morning and found the place filled with prosperous-looking men. When I remarked to the hostess about the great number of patrons at that hour, she told me it was the coffee hour.

Judging from that little experience and from other instances and from the papers and magazines, the coffee break has become a fixed institution. It would be inconsistent for me to say anything critical of it because I am fond of coffee. Only I like it a darker roast and a stronger brew than the coffee consumed in many coffee breaks.

We may think it is more than coffee that brings men together. The coffee is only the occasion for their getting together at a certain time. They meet for fellowship and a little breathing spell. And it would be wrong to figure the time it takes and charge it off as a loss. It is more likely that it should be credited as a gain. And if the coffee break takes the place of the getting together of men with feet on a brass rail, let us encourage it.

SCANNING THE NEWS

ALTHOUGH overshadowed by concentration on the defense establishment and economic impact of military spending, U. S. Government expenditures on public works have developed a marked uptrend after several years of comparative stability.

As a result, public works programs are becoming an important factor in the rise in Federal spending to record peacetime levels, and a significant counter-recessionary force at the same time, whether or not they satisfy the advocates of massive pump-priming.

A Bureau of the Budget analysis of public works programs of recent years and their cost show that such Federal expenditures, civil and military combined, ranged from around \$4 billions a year in the 1952-57 fiscal periods, with the high-point set in the 1953-54 fiscal year.

For the latest fiscal year, there will be a rise of more than a billion dollars over the 1957 period to a total estimated at \$5.7 billions for the year, and the probabilities are that this increase will be equalled or exceeded in the 1959 fiscal year starting July 1. The last official Government figures for public works spending placed the total at \$5.7 billions for the 1958 fiscal year.

Roll call. All Yeas, Motion carried.

STATE OF MICHIGAN
Department of Agriculture
Lansing 13, Michigan
June 11, 1958

Mr. Leo E. Lovely
Crawford County Clerk
Court House
Grayling, Michigan
Dear Mr. Lovely:

The certificate accompanying this letter designates Crawford County as modified, certified brucellosis free area, which means the incidence of brucellosis in livestock located in Crawford County is in less than one percent of the cattle and swine in less than five percent of the herds.

Becoming a modified certified brucellosis free area represents the first step in the eradication of disease and is a major achievement. This status has been achieved through the combined efforts of the Board of Supervisors, livestock owners, Extension Service, veterinarians and all with state and federal agencies.

The certified status of Crawford County will provide market and sales advantages to the livestock owners, and also afford a protection to them.

The job, however, is not finished. The goal is complete eradication of brucellosis. By a continuation of the combined efforts of all, brucellosis can be eradicated.

The cooperation of the Board of Supervisors, livestock owners, and all others who have assisted in this program, is deeply appreciated by the state and federal agencies.

Very truly yours,
Mich. Dept. of Agriculture
G. S. McIntyre, Director
Committee on Claims and Accounts
asked for further time.

Moved by Gleigling and supported by Plagens that we adjourn until Tuesday, June 17th at 9:00 A. M. Roll call. All Yeas, Motion carried.

RESOLUTION OF CRAWFORD COUNTY BOARD OF SUPERVISORS

WHEREAS, it is the opinion of this Board that by reason of old age, infirmity, illness and fear of a new county jail and sheriff's residence and in accordance with minimum standards of the State of Michigan, must be erected,

WHEREAS, it appears that the cost of construction of said jail and residence will be in the approximate amount of \$85,000.00, and

WHEREAS, this county does not have sufficient funds to pay for such construction and cannot raise the same under the 15 mill tax limitation now in effect, and

WHEREAS, it is the further opinion of this Board that such construction is necessary and that it is for the best interest of the public that the same be made, and that it is necessary to raise the funds therefor by a special tax upon the taxable property in said county, and that it is practical and expedient to spread a special tax of one mill upon such property for a period of ten years with which to establish a sinking fund for the payment of said construction, NOW THEREFORE,

IT IS HEREBY RESOLVED, that it is necessary and for the best interest of the public that a new jail and sheriff's residence be constructed, and

IT IS FURTHER RESOLVED, that it is practical and expedient to spread a special tax of one mill on the taxable property in said county for a period of ten years, from 1959 through 1968, both inclusive, to raise the amount necessary to pay for said construction, and to establish a sinking fund, therefore, and

IT IS FURTHER RESOLVED, that the questions of apportioning said special tax of one mill for said period of ten years and the establishing of such sinking fund be submitted to the qualified electors of said county by a general election to be held on November 4, 1958, said questions to be on separate ballots and to be in substantially the following form:

PROPOSITION 1. Shall the County of Crawford, Michigan, levy one (1) mill on the taxable property in said county for a period of ten (10) years from 1959 through 1968, both inclusive, for the purpose of creating a sinking fund to be used for construction of a new county jail and sheriff's residence in accordance with minimum standards of the State of Michigan Department of Corrections?

PROPOSITION 2. Shall the total rate limitation of the total amount of taxes which may be assessed against all property in the County of Crawford, Michigan, for the year 1958, be increased, as provided by Section 21, Article X of the Constitution of the State of Michigan, by one (1) mill on all taxable property in said county for a period of ten (10) years from 1959 through 1968, both inclusive, to create a sinking fund to be used for construction of a new county jail and sheriff's residence in accordance with minimum standards of the State of Michigan Department of Corrections?

Persons voting on the question of spreading the one mill tax and establishing a sinking fund for the payment of said construction PROPOSITION 1 shall have the following qualifications:

1. A citizen of the United States.

2. Over 21 years of age.

3. A resident of Michigan for 6 months and of the Township or City for 30 days prior to the date of the election.

4. The owner of property assessed for taxes within the county, or the lawful husband or wife of such owner.

Persons voting on the question of increasing the constitutional tax limitation in said County (PROPOSITION 2) must have the following qualifications:

1. A citizen of the United States.

2. Over 21 years of age.

3. A resident of Michigan for 6 months and of the Township or City for 30 days prior to the date of the election.

NOTICE IS HEREBY GIVEN, that the Board of Supervisors of said County have determined that the county of construction of new County Jail and Sheriff's residence to be \$85,000.00.

Moved by Roberts and supported by Plagens that the report of the Claims and Accounts Committee be accepted and approved and adopted. Roll call. Roberts, Plagens, Gleigling, Billman, Mead, Murphy, Peterson and Miller. All Yeas. Motion carried.

Moved by Gleigling and supported by Plagens that we adopt the following Resolution.

RESOLUTION OF CRAWFORD COUNTY BOARD OF SUPERVISORS

WHEREAS, it is the opinion of this Board that by reason of old age, infirmity, illness and fear of a new county jail and sheriff's residence and in accordance with minimum standards of the State of Michigan, must be erected,

WHEREAS, it appears that the cost of construction of said jail and residence will be in the approximate amount of \$85,000.00, and

WHEREAS, this county does not have sufficient funds to pay for such construction and cannot raise the same under the 15 mill tax limitation now in effect, and

WHEREAS, it is the further opinion of this Board that such construction is necessary and that it is for the best interest of the public that the same be made, and that it is necessary to raise the funds therefor by a special tax upon the taxable property in said county, and that it is practical and expedient to spread a special tax of one mill upon such property for a period of ten years with which to establish a sinking fund for the payment of said construction, NOW THEREFORE,

IT IS HEREBY RESOLVED, that it is necessary and for the best interest of the public that a new jail and sheriff's residence be constructed, and

IT IS FURTHER RESOLVED, that it is practical and expedient to spread a special tax of one mill on the taxable property in said county for a period of ten years, from 1959 through 1968, both inclusive, to raise the amount necessary to pay for said construction, and to establish a sinking fund, therefore, and

IT IS FURTHER RESOLVED, that the questions of apportioning said special tax of one mill for said period of ten years and the establishing of such sinking fund be submitted to the qualified electors of said county by a general election to be held on November 4, 1958, said questions to be on separate ballots and to be in substantially the following form:

PROPOSITION 1. Shall the County of Crawford, Michigan, levy one (1) mill on the taxable property in said county for a period of ten (10) years from 1959 through 1968, both inclusive, for the purpose of creating a sinking fund to be used for construction of a new county jail and sheriff's residence in accordance with minimum standards of the State of Michigan Department of Corrections?

PROPOSITION 2. Shall the total rate limitation of the total amount of taxes which may be assessed against all property in the County of Crawford, Michigan, for the year 1958, be increased, as provided by Section 21, Article X of the Constitution of the State of Michigan, by one (1) mill on all taxable property in said county for a period of ten (10) years from 1959 through 1968, both inclusive, to create a sinking fund to be used for construction of a new county jail and sheriff's residence in accordance with minimum standards of the State of Michigan Department of Corrections?

Persons voting on the question of spreading the one mill tax and establishing a sinking fund for the payment of said construction PROPOSITION 1 shall have the following qualifications:

1. A citizen of the United States.

2. Over 21 years of age.

3. A resident of Michigan for 6 months and of the Township or City for 30 days prior to the date of the election.

4. The owner of property assessed for taxes within the county, or the lawful husband or wife of such owner.

Persons voting on the question of increasing the constitutional tax limitation in said County (PROPOSITION 2) must have the following qualifications:

1. A citizen of the United States.

2. Over 21 years of age.

3. A resident of Michigan for 6 months and of the Township or City for 30 days prior to the date of the election.

NOTICE IS HEREBY GIVEN, that the Board of Supervisors of said County have determined that the county of construction of new County Jail and Sheriff's residence to be \$85,000.00.

Introduce Novel Motor Fuel Pump Blender

A revolutionary method of selling motor fuel which has been drawing crowds at automobile shows all over the country has been introduced here and in surrounding areas.

Featuring a recently invented blending pump, the new method for the first time enables each car owner to select the motor fuel which closely matches the octane needs of his particular automobile.

The local debut of the unique system called Custom Blending.

was announced today by William L. Stanek, Manager of the East Jordan Co-operative Company, local distributor.

It offers a choice of six progressively higher octane grades of motor fuel, all dispensed from a single automatic blending pump. Each blend of fuel bears an identifying number ranging from 200 to 260 and each is priced competitively according to octane quality.

Mr. Stanek asserted that the top blend — Blue Sunoco 260 — is the highest-octane motor fuel ever introduced at service stations in the U. S.

SEN. POTTER REPORTS

From Washington

A LAST-DITCH DRIVE for public hearings on the unfair federal automobile tax crushed last week by the Chairman of the Senate Finance Committee, setting the stage for a slambang battle to slash the tax on the Senate floor. The 10% excise tax on cars, which bloated a \$3,000 automobile to \$3,300, will drop to 7% on June 30 unless Congress votes to extend it. Without hearings, the House rammed through an extension and now the Senate Committee has rejected my plea for public hearings to enable auto officials, unions and others to present views on this vital anti-recession measure.

The Committee, therefore, has unwisely foreclosed full and open discussion. Their action can have only one effect: to gum up the wheels of economic recovery.

When this bill is called up on the Senate floor, I intend to see that Americans are fully informed on what a cut in the automobile excise tax could mean to the jobs in Michigan and throughout the United States. It would boost demand for cars. It would get production lines rolling. Paychecks would be issued. The re-awakened auto industry would gobble steel, rubber, glass and other materials, putting people back to work all along the way. The billions in personal income taxes and business taxes which would pour into the U. S. Treasury from all this activity would far outweigh the loss of the excise revenue.

The federal tax on automobiles was imposed as a deliberate depression on the industry during the war. Continuing it is a violation of its original intent and an act of bad faith.

PRESIDENT EISENHOWER himself will consider a plan for a "cancer" summit meeting next week at a special White House conference, to be attended by Act-

Every two minutes cancer kills one man, woman or child in the United States. Our best medical brains tell us we'll find the cure sooner or later. It must be sooner. Recently I suggested that we could cut months, perhaps years, off the time it takes to beat cancer by pooling the world's knowledge. Russia, for example, is believed to be ahead in the physiological aspects of cancer research. Britain leads in radiology and the United States in virology. This nation, I firmly believe, should take the initiative in offering what we have to the world and making possible the fullest cooperation in this humanitarian effort.

FOR AND ABOUT TEENAGERS

About Privileges and Obligations

SOMETHING TELLS ME I'M LATE AGAIN...

The use of the family car is a privilege. Some parents do not extend this privilege to their children, especially those in their teens. The teenager who does have the use of the family buggy also has the obligation to take care of it and to get home with it at the appointed hour.

To our Mississippi friend we say, "Observe the rules." If the hour for getting in seems too early, try to get it extended. If the punishment is too severe, try to get it lessened. But, obey the rule, whatever it may be. Every game has its rules and the game of life is far from being an exception.

If you have a teenage problem you want to discuss—open one modestly make, address your letter to FOR AND ABOUT TEENAGERS, NATIONAL WEEKLY NEWSPAPER SERVICE, FRANKFORT, KY.

A Mississippi teenager complains, "My folks set a definite time for me to be home when I use the family car at night. If I am as much as a few minutes late, I lose the use of the car for a while and I don't think it is right. A fellow can't always be on time."

A fellow can always be on time, if he makes plans right. Let us grant that unforeseen circumstances sometimes upset these plans—a flat tire, for instance. But, unless teenagers have changed greatly since the author's days, the reason for not getting home on time is that it is difficult to leave the party or the mall shop while things are still in high gear. It's too easy to get lost in having fun and forget about time.

Teenagers deserve their fun—
